DSI North Zonal
DERMOSCOPY WORKSHOP
Srinagar (21st July 2018)

Venue: Seminar Hall, CUTIS Institute of Dermatology
The CONDUCT of DERMOSCOPY WORKSHOP

- The workshop will start SHARP at 01.50 PM.
- The workshop will begin with a single or at most two lecture(s) by the Faculty – the presentations will not be lengthy or preachy, rather short, crisp, illustrious and to-the-point (5-10 minutes/lecture only).
- The presentations will be immediately followed by **LIVE DEMO plus QUESTION & ANSWER session**, pertaining to the topic dealt in the lecture. Firstly, a quick live videodermoscopical imaging for the disease/condition for whom consenting patients will be available, will be projected and explained in detail by one Faculty.
- We request the delegates who already own any dermoscope, to PLEASE BRING IT WITH THEM, along with supporting projection device like their dermoscope-compatible and mountable mobile device, or laptop (for a videodermoscope). **This is of course not mandatory** but will help you and your colleagues in getting a better exposure. If you bring your dermoscope and supporting devices, please ensure their safety yourself.
- The organizers shall not be responsible for any unforeseen loss or damage to the same.
